## WRECK MANSION OF EXECUTIVE AT SACRAMENTO

Attempt Made To Assassinate Gov. Stephens of California.

MEMBERS OF HOUSEHOLD  
ALL ESCAPED INJURY

Governor Had Been Making Patriotic Speeches His State.

(ASSOCIATED PRESS TELEGRAM)

Sacramento, Calif., Dec. 18.—What is believed to have been an attempt to kill Governor William D. Stephens by means of a powerful explosive bomb at midnight, last night, resulted in the wrecking of the executive mansion, the entire rear end of the building being blown out. The governor and Mrs. Stephens, as well as the household servants, were asleep at the time and all escaped injury.

Two men were seen flying from the house immediately after the explosion.

The detonation of the explosion was heard all over the city and windows were broken by the force of it two or three blocks away. It was believed that from twenty to twenty-five sticks of dynamite were used.

Governor and Mrs. Stephens were asleep in the wing of the house adjoining the spot where the explosion occurred, but beyond a nervous shock they were unharmed.

The attempted occurred just as the guard was being changed. H. Claussen one of the watchmen, was the first on the scene, having passed the spot but a few minutes before the explosion occurred. Claussen said he was certain that there was nothing unusual occurring on the ground.

He expressed the opinion that the explosive was thrown from an alley which runs along the rear of the house at a distance of about forty feet from the porch under which the charge was set off.

A hole several feet in depth and at least five feet wide was torn in the ground beneath a bay window at the rear of the structure and the entire wall up to the second story was blown away. The entire neighborhood was aroused and a crowd was on the scene a few minutes after the explosion occurred. There was scarcely a house in the block which was not effected.

A clem as to the perpetrators was given to the police by the Rev. Frazer Langford, pastor of a church, who reported that four months ago a man was noticed lurking about the executive mansion and that he continued to haunt the locality until a week ago, when he disappeared. The police are of the opinion that the attempt was made by pro-Germans.

"According to my judgment," said Governor Stephens, "the bomb was thrown from the alley way about forty feet to the rear of the mansion and did not light as far under the house as its owner had intended. I am strengthened in this statement by the fact that the back gates were both locked as usual and the watchmen had visited the basement just a few minutes before the explosion occurred. He is of the opinion that the steps he turned his flashlight on the place where indications prove the bomb was placed and at that time there was nothing there."

The governor was probably calmer of the group that surveyed the wrecked mansion and when his calmness was commented upon by the police he merely stated that the shock had not at all disturbed him.

Detectives searched down town houses without success for a man said to have been seen in the neighborhood of the mansion at an early hour in the evening.

William D. Stephens became governor of California last spring when Governor Hiram W. Johnson assumed his duties as United States senator. Previously Stephens resigned as representative in congress at the solicitation of Governor Johnson, who appointed him lieutenant governor to succeed the late John M. Eshleman.

Last week Governor Stephens made series of patriotic addresses in southern California, dealing largely with the duties of Californians in supporting the national government during the war.

The police have found neither a motive for the explosion or a definite clue to its perpetrators today. They were inclined, however, to reject the theory that the explosive was thrown against the building from an alley, because of a high fence, but nothing has been shown to indicate the bomb was "planted."

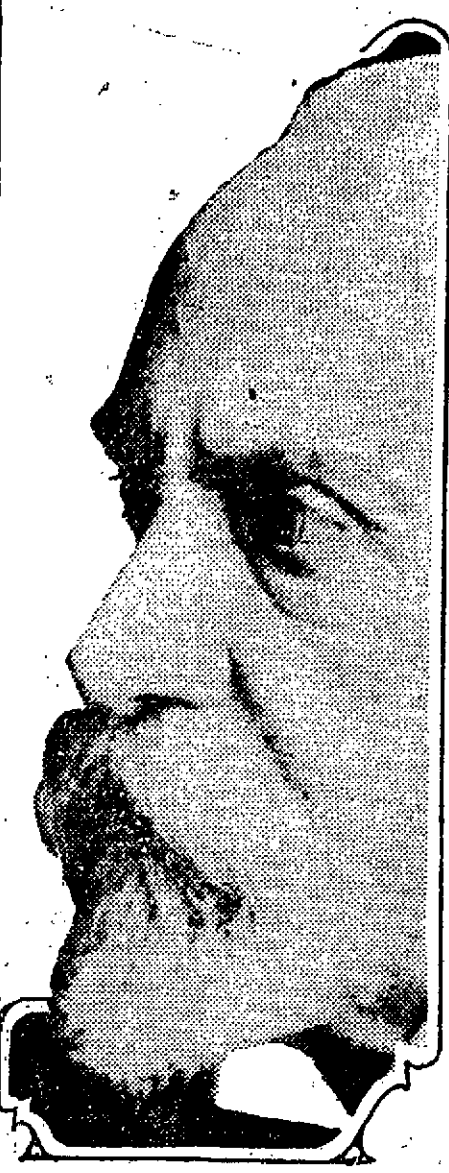

The last person admitted to the executive mansion was a Chinese servant who came in at about 11:30 p. m. The police say the explosion occurred between that hour and midnight.

### JAIL AT CLEVELAND

Cleveland, Dec. 18.—Five prisoners in the county jail, one held on a charge of murder, escaped early this morning by forcing a lock. The five men were privileged as trustees because of good behavior. Sheriff Hanatty and police immediately sent out searching parties. It is the second jail delivery in the last few months, three men escaping on the former occasion.

## WINS ORDER FOR GALLANTRY IN THE BATTLE OF CAMBRAI

(ASSOCIATED PRESS TELEGRAM)

London, Dec. 17.—The distinguished service order has been awarded to Lieut. Walter G. Oakman, Jr., of Islip, Long Island, a grandson of Roscoe Conkling, for gallantry in the "Cambrai" battle, where he was wounded for the third time. Lieut. Oakman is now in a private hospital in London and is being nursed by his sister. He has wounds on a hand and a leg, both received in the Cambrai push.

With Dillwyn P. Starr, a Philadelphia athlete, who also won a commission, Lieut. Oakman joined the Duke of Westminster's machine gun corps early in the war. He was first wounded in Flanders in 1916, being injured so seriously that his friends despaired of his ever returning to the front, but he recovered quickly and overcame the doctors' objections to further service. Six months later he was again on the firing line and again was wounded.

On this occasion as in the Flanders campaign Oakman and Starr were together. They were fighting side by side in the battle of the Somme when Starr was killed. By this time Oakman had received a commission in the Cold Stream guards. He was identified with this famous regiment when wounded before Cambrai.

## "POISON PEN" LETTERS ARE IN EVIDENCE

Threaten Life of Counsel for Frederick Lehman, at Wauseon Trial.

NUMBER OF OFFICIALS  
GET ANONYMOUS LETTERS

Defense in Murder Trial is Making Preparations to Take Testimony.

(ASSOCIATED PRESS TELEGRAM)

Wauseon, O., Dec. 18.—It became known today that "poison pen" letters have figured in the Frederick Lehman case, on trial here.

Attorney Fred B. Fowler, chief counsel for Lehman, admitted today that he received an anonymous letter several weeks ago threatening his life. The letter warned him to take no further part in the case, under penalty of assassination, if he continued his efforts on behalf of Frederick Lehman, accused of the murder of his wife, Grace, on the night of last September 16, on the Lehman farm, near Swanton. The motive of the murder, it is alleged, was Lehman's love for Mrs. Alice Fenton, the pretty wife of a neighbor. Much of the testimony in the case has revolved around the relations existing between Lehman and Mrs. Fenton.

Attorney Fowler says he showed the letter to the trial judge, Fred H. Wolfe, of the Fulton county common pleas bench. The letter was turned over to Sheriff William Boone for investigation. Sheriff Boone says he also received a letter very similar to the one received by Attorney Fowler, the Boone letter also threatened assassination. Much of the testimony in the case has revolved around the relations existing between Lehman and Mrs. Fenton.

Attorney Fowler said today he is positive as to the identity of the author of the epistles. He said the letter will be introduced in evidence when the defense begins its side of the case—probably Wednesday or Thursday.

The defense began preparations today for the taking of testimony in defense of the accused man. Thirteen witnesses were subpoenaed. Mr. and Mrs. Daniel Lehman, father and mother of the accused man, head the list.

The first witness at the trial today was Dr. C. E. Bennett of Wauseon, who examined Lehman's wounds shortly after the death of Mrs. Lehman. Dr. Bennett's testimony pertained to the nature of the wounds.

G. A. Kirchmaier, Toledo chemist, the last witness called, testified that he analyzed stains on a shirt worn by Frederick Lehman at the time Lehman's young wife was murdered, and found powder burns upon it. He said such burns could not have been made by a 22-calibre revolver fired at a distance of more than four inches from the shirt.

This was corroborated by F. W. Rummel, dealer in powder and sporting goods, who testified as an expert.

The state introduced this testimony in an attempt to deny Lehman's story that he and his wife were shot by robbers and to show, if possible, that Lehman first shot his wife and then inflicted slight wounds upon himself with the revolver found under his milkshed.

Coroner Park S. Bishop of Fulton county, testified that Lehman's overalls were not muddy and that there was no evidence of a struggle about the barn where Lehman said he had been attacked by the robbers after which he said, he dragged himself to the roadside to call help.

Other witnesses testified that, at the time of the shooting, there was a heavy dew on the damp ground.

Upon the request of a juror, the coroner was asked whether Lehman's wounds were of such character that he would have had to drag himself to the roadside. Dr. Bishop said the slight bullet wounds affected no nerve centers and that Lehman could easily have walked.

(ASSOCIATED PRESS TELEGRAM)

Wauseon, O., Dec. 18.—Introduction of evidence in an effort to offset the state's testimony against Frederick Lehman, on trial here, charged with the murder on September 17 of his wife Grace, will begin today providing the court overrules a motion by the defense to direct a verdict of not guilty.

In case the court refuses to allow the motion the defense is expected to introduce character witnesses to testify as to Lehman's high standing in the community.

JOHN WARD ACCEPTED

## SINKING OF CONVOY CAUSE OF CRITICISM BRITISH ADMIRALTY

(ASSOCIATED PRESS TELEGRAM)

London, Dec. 18.—Testimony given at the inquest over the victims of the German attack on the British convoy shows that the attack occurred between 4 and 5 o'clock, Wednesday morning, and that the enemy destroyers fired as rapidly as possible for a few minutes. A Swedish steamer was torpedoed twice, the second torpedo cutting the vessel completely in two. Of the crew of 20 hands on board 16 were either killed or are missing.

No assistance was rendered by the enemy boats. British destroyers came upon the scene and rescued the survivors.

The successful attack by German warships on a convoy in the North Sea, resulting in the sinking of 11 vessels as announced in the house of commons, came as an uncomfortable surprise to the British public. It is expected to cause a revival of the serious criticism of the admiralty such as at the time of the successful German attack on a convoy of Scandinavian merchantmen in October.

Added to this is the raid made off the Tyne last Wednesday by German warships. As a result of these two expeditions one British destroyer has been sunk, another seriously damaged, five trawlers and eight merchantmen have been sent to the bottom. Another trawler has been damaged and a number of men have been killed, wounded, or taken prisoners. Among the prisoners is a nephew of Viscount Grey, former foreign secretary.

According to Danish accounts the force which attacked the convoy consisted of four cruisers, in addition to destroyers. A painful aspect of the affair from the British public's point of view, is that apparently all the attacking vessels escaped and returned to their bases.

Another unpleasant feature is that the British cruiser squadron detailed to protect the convoy against surface attacks, for some unexplained reason was not on the scene.

Vice Admiral Beatty immediately opened an inquiry and the first sitting was held yesterday being conducted by Vice Admirals Stude, de Robeck and Goodenough. According to the testimony of survivors both here and in Scandinavia, the fighting was of most violent character. The Germans poured hundreds of shots into the ill-fated vessels.

CLAIM ALL CREWS OF  
MERCHANTMEN SAVED

Christiania, Dec. 18.—(Delayed by Censor)—All the crews of the merchantmen in the convoy attacked in the North Sea by the Germans last week were saved. The merchant vessels had time to retire while the outnumbered British destroyers and trawlers engaged in a desperate fight with the Germans and the crews of the merchantmen took to the boats.

One British destroyer, according to reports received here, sank after 10 minutes of brave fighting. The crew of the other destroyer continued to serve its guns until disabled. After disposing of the convoying vessels, the Germans turned their attention to the merchantmen and sank them, one by one.

The convoy attacked in the North Sea was made up of the following steamships: Bollsta, Norwegian, 1701 tons gross; King Magnus, Norwegian; Bothnia, Swedish, 1597 tons; Torlaf, Swedish (Torleif, 856 tons); Masabio, Danish; Cordova, British. (There were two British steamships Cordova, each of about 2300 tons).

The Bollsta was torpedoed and sank in 15 minutes. One of her boats with 11 of the crew and four passengers reached land after being out for 15 hours. A lifeboat from one of the Swedish steamers with 15 persons also reached port, although it was blowing a gale.

Contrary to the custom of the Germans one of their destroyers offered assistance to one of the Bollsta's boats.

## GENERAL PEACE NEGOTIATIONS IS THEIR MISSION

German and Austro-Hungarian Ministers Now at Russian Front.

MILITARY OPERATIONS  
ARE NOT VERY ACTIVE

Italians Retake Advantageous Position—Snow is Falling in France.

(Compiled from A. P. Dispatches)

To begin negotiations "for a general European peace," the German and Austro-Hungarian foreign ministers arrived today at Brest-Litovsk on the Russian front, according to their notification to the Bolshevik government at Petrograd, as cables from the Russian capital phrase the message.

Petrograd newspapers report that Leon Trotsky, the Bolshevik foreign minister, has invited the entire embassies in Petrograd to participate in the negotiations which are following upon the armistice agreement for the eastern front reported at the recent preliminary conferences at Brest-Litovsk between the Russian emissaries and those of the central powers. The allied diplomats have not received the Trotsky message up to last night, however, and what action they would take was said not to have been decided upon.

There are no indications, however, that any of the allied governments will consent to play any part in the dealings with the enemy which the Bolsheviks have initiated.

Germany and Austria-Hungary apparently will lose no time in bringing about a separate peace with the Bolshevik government of Russia now that the armistice between the countries has become effective. Dr. Von Kuehlmann, the German foreign secretary and Count Czernin, the Austrian foreign minister, will arrive at Brest-Litovsk today to begin negotiations looking toward peace.

A semi-official statement issued in Vienna declares that the central powers will follow up the armistice "as speedily as possible" with peace parleys and is added that Bulgaria and Turkey also will join in the negotiations.

According to Petrograd advices Leon Trotsky, the Bolshevik foreign minister, has notified the allied embassies that peace negotiations are to begin and has asked them to participate or state whether they wish peace. An informal conference of the allied diplomats is said to have reached no definite decision on the subject.

There has been virtually no change in the internal situation in Russia. The Bolshevik government is in a quiet state of foreign embassies in Petrograd, says it considers the question of recognition purely formal and cares little about it. The notice declares that the foreign embassies must give the passports of Bolshevik courier or similar courtesies will be refused.

Except on the Italian northern front near the Brenta river, military operations are at a minimum. The Italians in a desperate struggle, have been able to make an advance on the Col-Caprielle, while checking Austro-German attempts in the region of San Marino. The activity of the aerial and artillery arms on this front continues to be intense.

Snow has fallen heavily on the British front in France and only small isolated raids have occupied the infantry. The gunners on both sides are active. Except for artillery there has been no activity on the French front from St. Quentin to Alsace. In upper Alsace the French have repulsed a German attack near Aspach Le Bas.

The German cruisers which attacked the British convoy in the North Sea last Wednesday returned without losses and captured a large number of prisoners, according to Berlin. Fourteen vessels including seven neutral steamers were sunk by the Germans in the North Sea and off the mouth of the Tyne.

The London war office reports inactivity on the British section of the Franco-Belgian line where snow has fallen heavily. There was some infantry fighting on the French front in upper Alsace yesterday which resulted favorably to the French and spurred artillery activity continued last night on this part of the front in the region of the Rhone-Rhinne canal.

## STUCK TO POST THAT HE MIGHT SEND WARNINGS

(ASSOCIATED PRESS TELEGRAM)

Washington, Dec. 18.—Secretary Daniels has written to Robert A. Spurr, commanding his brother, C. L. Ausburne, radio-electrician on the army transport Antilles, who went down with the ship, torpedoed October 17. Ausburne, instead of trying to save his life, stuck to his station to give warning signals, shouting "goodbye" to his mates.

The officer in charge of the armed guard has commended the conduct of the navy personnel. The two forward gun crews in charge of Lieutenant R. D. Tisdale, remained calmly at their stations while the ship was sinking and make no move to leave their posts until ordered to save themselves. In connection with the rescue of survivors an instance of remarkable coolness was cited in the case of a man of the gun crew rescued from the top of a floating ammunition box. When he saw a steamer coming to pick him up he signalled the ship by semaphore not to come too close as the box he was sitting on contained ammunition.

PEACE WITH ENGLAND  
OUT OF THE QUESTION  
SAYS THE CHANCELLOR

(ASSOCIATED PRESS TELEGRAM)

London, Monday, Dec. 17.—Germany's way in the west is clear, inasmuch as a peace by negotiation with Great Britain is out of the question at present Chancellor von Hertling asserted in an interview given to the director of the Wolff bureau, the semi-official German news agency, as quoted in dispatches reaching London today.

The interview was given in response to a request for a reply to the recent speech of Premier Lloyd George who said he would regard peace overtures with Prussia at the moment the Prussian military spirit was drunk with boastfulness as a betrayal of the great trust with which he and his colleagues had been charged.

"Lloyd-George calls us criminals and traitors," said the chancellor. "Modern wars are not won by invective but perhaps rather prolonged thereby because it is clearly out of the question to negotiate with men of such temper. For some time it has been impossible for an attentive observer to doubt that the British government under Lloyd-George's leadership is completely inaccessible to the idea of a just peace by understanding. His speech affords convincing proof of this."

## PROHIBITION TO BE SUBMITTED TO THE STATES

Senate Concurs and Accepts Resolution As Passed By the House.

12 OHIO CONGRESSMEN  
FAVORED THE AMENDMENT

Seven Years Are Given For Its Adoption By Legislatures of States

(ASSOCIATED PRESS TELEGRAM)

Washington, Dec. 18.—The constitutional amendment for national prohibition was today finally submitted by congress to the states for ratification or rejection within seven years. The senate completed congressional action by accepting the resolution as passed yesterday by the house, 47 to 8, without a roll-call.

Immediately after the senate concurred, Senator Sheppard of Texas, called up the national prohibition amendment and moved that the senate concur in the house amendments. Vice President Marshall ruled that a two-thirds vote would be required for concurrence.

Senator Borah objected to accepting the house amendments, contending that congress has no authority to specify the time in which the amendment is to be ratified, and that the constitution gives no authority for providing that prohibition shall become effective within one year after being accepted by the states.

The federal prohibition amendment approved by the senate last August, passed the house late yesterday by a vote of 282 to 128.

The house form of the resolution, which allows three-fourths of the state legislatures seven years to ratify the amendment. Instead of the senate time provision of six years, was sent to the senate today where leaders had assurance the seven-year period would be approved.

The resolution, which proposes an amendment to the federal constitution forbidding the manufacture, sale or importation of intoxicating liquor for beverage purposes in the United States and territories, does not need the president's approval and legislatures may act as soon as they please after the signatures of the vice president and speaker have been attached.

An amendment by Representative Lee of California, providing that prohibition provisions should not apply to light wines and beer was rejected by a rising vote of 232 to 107.

Congressmen emerged from under veritable waves of telegrams from "back home" when they came into the house chamber to vote, late yesterday. The galleries were packed with enthusiasts from both sides of the question, come prepared for a field day. There was much conferring among the general on the floor as the debate got under way with the time equally divided between the two sides.

Representative Gard of Ohio, leading the opposition, declared the amendment proposed an invasion of the police power of the states and threatened the unanimity of the American people in winning the war. The great body of Americans, he contended, want to leave the whole matter just as it is now.

Dozens of members made short speeches going over the familiar ground on which champions of both sides have fought their battles in the halls of congress for many years. The only new argument introduced was the war issue.

The house agreed yesterday to vote on the federal officers' profit tax today after an hour's debate and passage was regarded certain. Administration leaders appeared also confident of a favorable senate vote the leasing bill before adjournment.

# THE Detroit ELECTRIC

Today's Car of Utility and Economy

## You Need No Chauffeur with a Detroit Electric

There is one of the many practical advantages of the Detroit Electric.

Your entire family may enjoy a Detroit Electric Car many hours of the day when a gasoline car might be standing idle in your garage, simply for lack of a driver. Under such circumstances, you are surely not getting value received from your investment in a gasoline car.

Either wife or daughter can drive a Detroit Electric as safely and easily as husband or the chauffeur.

This ease of operation means much today when men are needed by the Government.

The Detroit Electric solves the motor car problem for many a family whose chauffeur, or son, or husband, has proffered his services to the state.

The Detroit Electric is a powerful, modern automobile. Eighty to one hundred miles is the travel radius on a single charge—at speed up to 25 miles per hour.

Consider, too, its cleanliness, its conservative elegance, its constant availability—winter as well as summer. And it is an economical car in the extreme.

An actual road demonstration will convince you that the modern Detroit Electric is the car you need now.

## GRANVILLE

(Special to The Advocate.)  
Granville, Dec. 18.—The Festival Association has reason to feel proud of its program committee for favoring this community with so delightful and at the same time so high class a musical attraction as was the concert given in the Baptist church Monday evening by the celebrated Culp String Quartet of Cincinnati. Although many ticket-holders were absent from this, the first number of the course, there was a large and most appreciative audience present, continually clamoring for "more." Numerous recalls at last resulted in three extra numbers played with exquisite finish by these consummate artists, who can be assured of a capacity audience whenever they revisit Granville. This quartet is neither too conservative nor too radical in their playing, using excellent judgment in their appeal to the people. The humor of the Haydn Quartet in G. No. 14, Op. 77, simple and old fashioned, so beautifully brought out as to captivate the audience. The jump then to the Dvorak quartet in G major with its five movements, was considerable, and so highly appreciated as to elicit a hearty recall. The middle group contained an Englishman, a Frenchman, an Italian, a Russian, and a Norwegian composer, each player with a charm and an appeal of the good wishes and prayers of the people of Licking county. He was educated and grew to manhood in that community and in 1898 was one of the carriers of the Daily Advocate and this token of appreciation, from many who were his personal friends, will help him to do his best for his country—and to prove that the pride and good wishes of Licking county were not misplaced. He had 15 days furlough, which he spent with his mother in Cleveland before going across to take up his work. Again thanking you one and all for this token, and your words of esteem, I remain Yours sincerely, Mrs. Jay W. McFarland, 1651 East Seventeenth street, Cleveland, O.

## To Stop a Persistent, Hacking Cough

The best remedy is one you can easily make at home. Cheap, but very effective.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking or bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old home-made remedy that will end such a cough easily and quickly.

Get from any druggist "2 1/2 ounces of Pinex" (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

## CHIROPRACTIC

Are you in perfect health? If not, there is a reason—namely: lack of nerve-supply. Perfect nerve-supply means perfect health. The spine is the switchboard which controls the nerve-supply to the entire body. Thus disorders or diseases of the body are caused at the spine. Chiropractic adjustments correct spinal disorders, and thus removes the CAUSE of disease, permitting Nature to effect the cure.

TOMORROW'S CONCERT.

The New York Philharmonic Orchestra, one of the world's greatest musical organizations, composed of 75 American citizens, will be the attraction at the Auditorium here tomorrow. The program appears in the advertising columns of this newspaper. Seats are now selling.

This event is announced as a Christmas benefit for the Licking county soldier boys' athletic fund, and as such should draw a large patronage, but quite aside from that is the fact that tomorrow's program offers Newark an opportunity to hear a famous musical organization. The Auditorium should be filled because the New York Philharmonic is indeed worth hearing.

In giving to the Red Cross and the Y. M. C. A. war fund you are helping your country and the young men who are in the army and navy. In buying Thrift stamps and war savings certificates you are not only helping your country and the American soldiers but you are helping yourself. You are making no donation in purchasing Thrift stamps but are making the highest type of investment. You are buying "baby Liberty bonds" that pay you a good rate of interest and have back of the loan to the government all of the resources of this great nation. And another valuable feature: you can get your money back on your war savings certificate any time you want to with interest added.

The Twentieth Century limited train arrived in Chicago from New York three hours late yesterday and in consequence the Red Cross netted \$424. Nearly all of the passengers donated their dollar refund from the railway company to the Red Cross. It's an ill wind that blows nobody good.

Twenty-two hundred Newark school boys and girls above the fifth grade are working for the Red Cross this afternoon securing memberships for 1918 at one dollar each. The children are in earnest and are meeting with great success.

There would be no serious objections if the congressmen who held up the war appropriations should be sent out in the trenches with only one of those wooden guns between themselves and the Germans.

Buy Thrift stamps today and every day. Start a savings account with Uncle Sam. He needs the money and will pay you a good rate of interest.

An excellent place for the food speculators is right in jail where they can spend their time speculating when they will get out.

It is evident that Mr. Hoover will have to attend at once to price-fixing the cost of baseball pitchers and coaches.

CHRISTMAS TREE.

Many economists think the Christmas tree custom is all wrong. They figure out that the land-owner gets little or nothing for the budding spruce fir and hemlock saplings. By cutting them off, the owner throws away the future growth of a forest.

Yet they are cut at a time when the farm help is not busy. The return for them is thus mostly clear profit, and they grow on poor, rough land. If the little trees are to grow up into a forest, it will at least take another generation to see them mature.

The Christmas tree custom means a lot to both children and grown-ups, and it will not soon be given up. Evergreen foliage is a symbol of the continuance of life and hope. The Christmas tree brings its suggestions of merriment and festivity and young life, and it is not a real children's Christmas without it.

AMERICANS IN FRANCE.

(New York Times)  
Coming to our own transportation problem—we have sent to France in quick succession division after division of regulars and the National Guard—it is to be noted, first, that German submarines were swarming in the eastern Atlantic and were capable of roaming, practically at will, in any part of the Atlantic; and, again, that a considerable part of the American Navy had been diverted to British waters to co-operate with the British patrol. Moreover, the United States suffered from a deficiency of shipping for transportation purposes. Ships had to be borrowed and requisitioned, and it was necessary to "construct" and "refit" seized enemy ships. From any point of view the undertaking to convey any large number of troops to European shores bristled with difficulties.

Nevertheless, ours is a triumph to be proud of. Transport after transport loaded with soldiers, has moved in the broad light of day, and conveyed by available warships, has run the gauntlet and landed its troops without the loss of a single man. The number is known approximately, but cannot be published. It is sufficient to know that in France today we have probably the largest American force ever assembled, and ready with supplementary training to go into the trenches by the side of the veteran French and British soldiers.

Spirit of the Press

**Stern Discipline.**  
It is not a little startling to hear that 13 Negro soldiers have been hanged at Fort Sam Houston and 41 sentenced to imprisonment. Those were the men found guilty of complicity in the riot and mutiny at Houston last August. That there was ample proof of their guilt may be taken for granted. The justice dispensed by court-martial is traditionally impartial if severe. Such a wholesome example of it is, however, new to the present generation. Many, perhaps, unused to war-time methods may be inclined to deplore the episode; and in a sense it is deplorable. But rigid discipline is the first requisite in a military force. Armed men who turn their guns on any but the enemy are a menace that cannot be tolerated. —Philadelphia Public Ledger.

**Fish from Canada Free from Duty.**  
Under present arrangements between the United States and the Dominion of Canada, fresh fish are admitted to this country free from duty. It is officially explained that frozen fish come within this category. This is somewhat important, as practically all of the fish caught in the upper lakes at this season of the year are frozen before they reach the point of export. Just what the effect of this order will be with relation to sea food shipped to outlying cities from Atlantic fishing ports is yet to be seen, but logically it should tend to lower the cost to the customer of this substitute for meat. —Rochester Democrat and Chronicle.

**USE INTELLIGENCE IN PRACTICE OF ECONOMY INSTEAD OF AN AX**  
(Philadelphia Public Ledger)

Last year the United States, working to its normal capacity, produced goods and services to the amount of \$40,000,000,000 or so. This year the government proposes to devote goods and services to the amount of \$19,000,000,000 in a new direction. The two categories of peace purposes and war purposes contain some duplications; yet it is evident there are not enough materials and labor in the country to cover the old peace program and the new war program too.

So you hear this doctrine: "We must cut out businesses that are not essential for carrying on the war or for subsisting the population." But this is a mischievous nonsense. We must economize intelligently in the use of labor and materials that are essential for carrying on the war and subsisting the population — which is a different matter.

Here is a millinery shop filled with expensive hats. They represent consumption of labor and materials. Certainly they are not necessary for the war or for subsisting the population. But the materials consist of silk, satin, artificial flowers, feathers—stuff that is worthless except for purposes of display. The labor is largely that of women whose labor for another purpose is of comparatively slight value. A woman worth \$50 a week as a hat designer might not be worth 50 cents a week in a munition factory.

In short, nearly all the material and a good part of the labor will simply go to waste unless they are consumed in the millinery shop. They are not of a sort that the Government can use for war purposes or that are of much value for necessary subsistence.

Cutting out business not strictly necessary for war or subsistence would mean shutting up two-thirds of Fifth Avenue, New York—all the milliners, dress-makers, jewelers, dealers in art objects, expensive furniture and so on. The materials and labor saved thereby would be of very little value for any other purpose. You would at once start a panic in the rent market. All of these so-called non-essential businesses are bases of credit—bank credit, jobbers' credit, manufacturer's credit. Cut them out and the whole structure of credit would get a fearful jolt. Let any banker look over his loans and mark off all those which are based on businesses that are not strictly necessary for war or subsistence, and then consider how long his bank would stay open if all those businesses were shut up.

Here is a piano factory—certainly not strictly necessary for war or subsistence. Much of the material—except woods and so on—is useless except for some such purpose as piano making. The labor force, skilled and experienced in that particular trade, cannot be suddenly diverted to another occupation except at large loss. The piano maker has his branch offices, his long-established relations with retailers whose solvency and livelihood depend upon handling his goods—in short, his entire extensive business organization, built up by long effort and cemented by established usage. To close his factory is to destroy all that, to start a ramifying disorgan-

the way they make us poor women scrimp and save and conserve, and thus lose all our sweetness, while the good-for-nothing men are allowed to smoke their heads off, and we can rest assured that if some of these young fellows who claim they do not smoke, don't change their ways, they'll be due for a great big one later on. —One Who Nods!

**Perfect Thirty-six.**  
The man who tells you that he believes "in principles, not men," means—nothing at all. One would think that in the beginning God created a set of principles, and man was without form and void. —B. L. T. in Chicago Tribune.

That may be true of man but no woman will see any sense in being without it so long as the supply of excelsior holds out.

**BY.**  
The V in V-necked waists stands pat. Though chests are cold and blue, And I face an end that is not smoke, don't change their ways, they'll be due for a great big one later on. —One Who Nods!

Sometimes when corned girls we see go ambulating past. We are inclined to think the V Must surely stand for "Vest."

And when the V's just deep enough To make the sight elvish, There are those of us (who write this stuff) Who think the V's for Vision.

And those there be who do maintain, When a deep V they lamp, To them the matter's plain: The V must stand for Vamp. —Macon, Ga., Telegram.

**Did You Know**  
That hospitals are so called from the mediaeval "hospitia" established for the relief of lepers? These leper hospitals were commonly "Spitals" in England and Scotland. Among the oldest hospitals in England are St. Bartholomew's, established in 1546; Bethlehem, in 1547; and St. Thomas', in 1553.

**"ME."**  
Can't say I'm sorry that you're sick, Since you throwed me that there brick. Rather glad you've lost your goat; Puts us both in the self-same boat. Make fun of "Hunka" if you like, But note that I ride a horse that hike. You'd never 've had to fear pneumonia If only once my Liz had thrown you. Hope the Doc will scratch his pate And decide he'll have to operate. I'll drive to the Sanatorium, Some day when you're feelin' mighty klum, And the chills are runnin' down your back, And you're takin' squills and epiac, And when you beg to go along, I'll remind you that you're far from strong. Especially up in your head. Gotta doctor you'll be dead. Which would you rather have, a wreath Or bouquet with ribbon tied beneath? I hope your fever's now much higher, You're lookin' worse. ## SOCIAL EVENTS

**SOCIETY EDITOR, AUTO PHONE 2312.**

The members of the Colonial Sewing circle will be entertained by Mrs. C. H. Biddgood at her home in Granville street, Wednesday afternoon.

Mrs. John Tucker left today for Chillicothe as a representative of the American Revolution, at the dedication of the new hostess house of the Ohio Daughters of the American Revolution at Camp Sherman tomorrow.

An informal housewarming will be held tonight and at 11 o'clock tomorrow exercises of dedication will be held under the direction of Major General Glenn. The new building contains 65 rooms, and will accommodate three times the many visitors if necessity demands. The complete cost was to be \$15,000 and is for the convenience of families and friends of select who have found it hard to find accommodations while visiting the boys at the camp.

The Phi Delta Kappa fraternity of Zanesville will entertain at Gold Hall in that city on New Year's eve with a Hawaiian ball. There will be visitors from Lancaster, Newark and Springfield. The dancing hours will be from 8 until 2 o'clock and the Unga-mach orchestra will furnish the Hawaiian program. The party will be chaperoned by Mr. and Mrs. William Townsend and Mr. and Mrs. William Wiles.

The regular meeting of the Monday Talks was held on the club day at the home of Miss Mary Sprague and an interesting program was arranged. Mrs. Clarence Heisey spoke on "Michigan Life at Ann Arbor" and Mrs. Frank Sprague told of "Cadet Life at West Point."

The paper to have been given by Mrs. Walter Bainbridge was transferred until later in the season and Miss Louise Hunter gave current events.

The club arranged to have the members sell Red Cross stamps, and the club adjourned to attend the lecture given by Mrs. Charles White, at the High School auditorium, illustrating the coming Philharmonic

concert. The illustrations were ably given by Misses Hagmeier and Larkin at the piano.

The Senior Girls of the Perry Baptist Sunday school have organized their class and the first meeting was held at the home of Miss Opal Bucy. A program was rendered by different members of the class and those present were Misses Opal Bucy, Ethel Dugan, Fern Conrad, Glenn Rine, Olive Nicholls, Lily Totton, Nellie Clark, Gladys Dugan, Glor Rine, Arlie Boyd, Alta Jones, and Messrs. Everett Bucy, Roy Hardesty, Lee Dugan, Earl Rine, Clay Totton, and Ross Hardesty. The evening was enjoyed by all and the next meeting will be at the home of Miss Arlie Boyd, Friday evening, January 4.

The Progressive club has made possible an interesting as well as an instructive entertainment, and on Wednesday afternoon of this week, Prof. Johnston of Denison University will lecture on Shakespeare, under the auspices of the club. This lecture is arranged complimentary to the other clubs of the city who will be guests of the Progressive club and in the city who might be interested in the study of Shakespeare or his works.

**Mrs. J. C. Merrill.**  
Mrs. Margaret Merrill, 76, wife of Joseph C. Merrill, died at the home of her son E. R. Merrill, five miles northeast of the city Monday morning at six o'clock. She had been an invalid for the past four years and Monday she suffered a stroke of paralysis which caused her death. The deceased was the daughter of Mr. and Mrs. William Frost and was born in Fallsburg township. Besides the husband she leaves to mourn her death two children, Mrs. Rata Bowman of Hebron, O., and one brother, W. S. Frost of St. Louisville, O., and two sisters, Obidiah Baughman of Fallsburg township and Mrs. Rachel Thomas of Omaha, Neb.  
Funeral services will be held from the home, Wednesday morning, burial at Cedar Hill cemetery.

**Samuel K. Conrad.**  
Samuel Keeran Conrad died at his home, 263 Elmwood avenue, Tuesday morning at 1 o'clock, death being due to the infirmities of age. He was the son of Mr. and Mrs. Samuel Conrad, and was born in McKean township, October 17, 1838, being 79 years of age at the time of his death.

At the outbreak of the Civil war he volunteered and served throughout the war. He was a member of the G. A. R.

He was the youngest of 13 children, all of whom are dead with the exception of three sisters—they are Mrs. Elizabeth Ramey of Topeka, Kas., Mrs. Mattie Wesley of Marysville, and Fathena Conrad 181 East Main street.

The funeral services will be conducted at the undertaking parlors of Criss Bros., at 2 o'clock Thursday afternoon, Rev. C. H. Stull officiating. Interment will be made in Cedar Hill cemetery.

**Mrs. Sunderland's Funeral.**  
Mt. Vernon, Dec. 18.—Mrs. Mary Sunderland, mother of Mrs. C. E. Cochran of Mt. Vernon, who died at the home of her daughter, Mrs. C. A. Grill in Newark, Saturday, was buried at Mount View cemetery this afternoon. Funeral services took place at the Cochran home in North Sandusky street, at 1:30 o'clock. Mrs. Sunderland was 81 years of age.

**Mrs. Rose Edwards.**  
Mrs. Rose Edwards, 70, died at the Newark Sanitarium at 9 o'clock, Tuesday morning. Death followed an illness resulting from a complication of diseases. Mrs. Edwards lived at the rear of 16 North Second street, and was well known to the tailoring trade of the city having for years been a tailoress.

The body was removed to the McGeele undertaking parlors. No arrangements have been made for funeral services.

**Benjamin C. McClain.**  
Benjamin C. McClain, son of George W. and Prudence McClain, was born in Licking county, Ohio, September 13, 1839, died at his home near Fredonia, December 13, 1917, of Bright's Disease, aged 78 years and 3 months.

He was a member of a family of six children, two brothers and two sisters having preceded him to the spirit land.  
He was united in marriage with Caroline Nash, August 19, 1860. To this union two sons were born, John B. who died at the age of twenty and George Nelson of the home.

In 1861 they moved to Mahaska county, Iowa, and resided there thirty years, returning to Ohio in 1891. While in Iowa he united with the Christian church.  
He leaves to mourn their loss, one son, George Nelson, wife, one daughter, John of Newark, four grand children, two great grand children and a host of other relatives and friends.

He successfully followed the occupation of farming until failing health and the death of his wife three years ago, October 13, 1914, caused him to lead a more quiet life.

He was a good neighbor always.

**YOU ARE PARTLY MADE OF IRON**

That is, iron is an essential constituent of pure, healthy blood. Peptiron, the new iron tonic, combines pepsin, iron, nux, celery and other blood and stomach tonics that physicians prescribe.

It is a wonderful corrective of anemia, paleness, languor, nervousness—whether caused by hard work, worries—over-use of salt and other blood-depleting cathartics that are doing so much harm to many people just now—or any other cause. Peptiron will restore the iron strength that you must have for cheerful performance of daily duties.

Peptiron is in convenient pill form, chocolate-coated and pleasant to take.

**Our Boys and Girls**

Never pass over the correction of a lie as it is the worst form of bad behavior in a child. Think of the treatment a chronic liar gets when he goes from his indulgent home to a public school. Being a dangerous person he is thought generally unfit for the society of his fellow pupils. In the end he gets the worst of things every time.

It is all easy enough when you get into the regular routine of discipline. The important thing is to begin early and to have a lamp of patience forever filled and burning. Where the easy, well bred deportment of children is concerned the usual tantrum of the mother when she catches her children in a lie, brings only bashfulness and deceit.

How very much does a girl need a good mother's wisdom to guide her into the realm of womanhood. It is difficult to make a girl understand that she must be guarded and saved from some of the strongest instincts and impulses of her own nature. She may have turned too eagerly toward the love that is the crown of womanhood or may have reached out too soon for the warm, tender handclasp of a lover.

The mother who lets her girl drift into one of these early love affairs must refrain from reproaching the girl. But she should reproach herself from not having saved her offspring from an experience which must leave a scar.

Muggins—"I bet her a kiss and won, but I was in doubt as to the propriety of kissing her." Ruggins—"What did you do?" Muggins—"I gave her the benefit of the doubt."

She—"I don't think you like me at all." He—"Sure, I do. There's only one thing about you I'd change, and that's your last name."

## ABOUT PEOPLE

Mrs. Lee Huff and little daughter, Alice Janet of Parkersburg, W. Va., who have been visiting her parents, Major and Mrs. C. W. Miller, leaves tomorrow for her home.

Messrs. Frank Binder and Art Mason have been spending a few days at the home of Mr. Mason in Marietta.

D. D. Clark of Alexandria is in the city today.  
Miss Adda Andrews is ill at her home in Arch street with a severe case of tonsillitis.

**Milady's Boudoir**  
It is often asked why, of all parts of the body, the face is most subject to spots, pimples, and other blemishes. It is because the pores are kept open and by frequent baths and the circulation stimulated by the rubbing and drying, the effete humors in the blood find there a ready exit, and consequently crown thither from all parts of the body, giving the skin there too much to do. If the whole body is subject to a daily bath and a thorough rub-down, the secretions will be equally distributed and no one part of the body overtaxed. Then, some exercise should be taken daily to complete the cure.

Lightly flexing the arms is a mild but invigorating exercise. It can be made more intense by clenching the fists and tensing the muscles as the arms are bent. Begin the exercise by raising the arms horizontally at the sides, bent upward at the elbow and continue the movement until the hands rest on the shoulders. The arms are now returned to horizontal positions and then lowered to the sides. Now raise the arms again to a horizontal position, bend at elbow and, with energy, thrust them high overhead. The arms are lowered to the sides by reversing the movements. Two or three minutes are sufficient to practice these exercises. Finish exercising by flexing the legs as follows:

Stand with one foot in advance of the other, arms at back, feet firm and flat on the floor at all times. Standing so, the trunk is held erect, but lowered by bending at the hips, knees and ankles. This should be repeated a number of times. The other foot is now advanced and the exercise resumed. This calls into play wide range of muscles, but its efficiency depends upon the vigor with which they are executed.

### Every Day Etiquette

"Not necessarily. While no other ring is worn with the engagement ring on the left hand, a girl may wear any ring she pleases on her right hand," said her older sister.

"Must the wearing of my engagement ring preclude the wearing of all others?" inquired Mona.

**A NEWARK MAN  
GETS MERIT CUP  
IN REALTY CONTEST**  
Cleveland Plain Dealer  
Gibson W. Lippincott, property of  
Newark, who served eight years as sec-  
retary in the boys' department of the  
Y. M. C. A. at Akron and later came to  
Cleveland as executive secretary of the  
Broadway Y. M. C. A., has been awarded  
the merit cup donated by the Van  
De Bilt-Hazen Co. for his work in  
promoting real estate allotment among  
young men of estate allotment.  
Mr. Lippincott left Y. M. C. A. work  
a year ago Dec. 1 to enter the realty  
field. As a member of Green, Cadwal-  
lader & Long's staff of salesmen, he  
has been so successful from a stand-  
point of volume of business, method in  
handling, ability to close deals himself,  
rather than have a sales manager do  
so, and his general ethical procedure  
prompted the committee consisting of  
J. W. Hingham, A. D. Wase and C. W.  
Shingleton to award him the trophy.  
"Winning the cup never entered my  
mind," said Mr. Lippincott. "I took up  
the new work determined to make good  
and I worked hard. My success in sell-  
ing real estate for the Greene, Cadwal-  
lader & Long Co. was due, I believe, to  
the fact that I had something to offer  
that I believed was good property and  
an excellent investment and when you  
have something to offer that you be-  
lieve in it is easy to sell."

**FARMERS' INSTITUTE

PROVE INTERESTING**  
A farmers' institute will be held on  
Wednesday and Thursday of this week  
at Perryton. The officers are Frank  
Phillips, president; E. E. Hooper, vice  
president; W. L. Phillips, treasurer; E.  
T. Bennett, secretary. The committee  
in charge is composed of Clara Ardy,  
J. W. Aschcraft and W. E. Freese. There  
will be cash prizes awarded by the Per-  
ryton grange for corn, potatoes and  
baking contest. The speakers will be  
Geo. S. Crawford, Mrs. Ida A. Durbin  
and J. L. Buchanan. They are splendid  
speakers and all who attend will re-  
ceive an excellent message from every  
lecture.

**CLUBS WILL OPEN  
THE SEASON LATER;  
CUT DOWN SCHEDULE**  
(Associated Press Telegram)  
Chicago, Dec. 18.—American Associa-  
tion club owners probably will de-  
cline to meet in February to cut down  
the playing schedule to 140 games. Re-  
duction of the schedule was discussed  
at the annual meeting yesterday and  
according to club owners here today  
the shorter card was favorably received.  
Definite action, however, was de-  
ferred until early in February when  
final plans for the coming season was  
elimination of the so-called spit ball  
and similar deliveries and the decision  
to open the season May 1 or 2—three  
weeks later than usual.  
Club owners also decided to reduce  
the player limit from 17 to 18 and to  
return to the double contract system.  
Instead of contributing \$2000 a year  
to the association as its share of the  
expenses, each club hereafter will con-  
tribute a percentage of its receipts.

**Guide for Automobileists.**

applies.

**THE MARKETS**  
Wall Street.  
(Associated Press Telegram)  
New York, Dec. 18.—Faint gains in  
prominent stocks during the early  
stages of today's trading were bal-  
anced by further material recessions in  
special issues. American Tobacco  
yielded almost 5 points, United Fruit  
1 and American Telephone, General  
Electric and Western Union 1 to 2  
points. Irregularity was shown by  
bills. Liberty bonds were inclined to  
improve.  
A few rails and industrials strength-  
ened on the nominal dealings of the  
morning, but the heaviness of special-  
ties and bonds acted as a further drag.  
New numbers included American To-  
bacco, American Telephone and several  
of the foreign war flotations, that list  
embracing Anglo-French, French  
Government, Canadian and Kingdom of  
1921. Liberty issues also were affected,  
the 2½s declining from 95½ to the new  
low of 94½, the 4s rising at 97½ to 98.

Chicago, Dec. 18.—Continued mild  
weather that promised increasing re-  
ceipts gave a little advantage today to  
the bears in corn. The fact, however,  
that the number of arrivals had taken place  
tended to make sellers cautious. Mean-  
while the embargo on castoroid ship-  
ping from Chicago remained an ef-  
fectual check on bulls. Opening prices,

**Last Crimean Veteran.**  
Two Crimean veterans, probably the  
last in Ireland, have died. One was John  
Hayes, age ninety-two, who was  
wounded at the siege of Sebastopol,  
and the other Denis Heiligan, age  
ninety-four, who had 38 years' service.

Forethought.  
There's nothing so comfortable as  
the feeling which follows the discov-  
ery of the trouble that would have  
happened if you had said the thing  
you were about to say, but had had  
the good sense not to say.  
Ever, when a man is under a cloud  
he may argue that they come like  
but he must have them.  
There's plenty of room at the top,  
but the soldiers at the front are am-  
bitious to go over the top.

**NAME AERIAL HIGHWAY  
IN HONOR OF WILSON**  
Plans for Aerial Jitneys Safe as  
Flivver Now Occupying At-  
tention of Orville Wright.

Plans for airplane jitneys, as safe  
as a flivver, and aerial highways criss-  
crossing the American continent with  
seven-mile stops, are occupying the  
time, genius and energy of Orville  
Wright, Dayton inventor, who, with  
his brother, made the airplane prac-  
tical. Wright is not much interested  
in battle cruisers of the air, although  
he admits they are important to win  
the war. Wright views the airplane,  
as a messenger of peace and not a  
tool of Mars. Hence his activity in be-  
half of aero jitneys.

A dozen years ago the first success-  
ful flight of a heavier-than-air ma-  
chine was made by the Wright brothers  
in Dayton, O. Orville Wright now  
believes the next ten years will mark  
even greater use of the air machines.  
"As soon as the war is over I ex-  
pect to see the whole country mapped  
out with aerial highways," says  
Wright. "Along these routes, say  
every seven miles, there will be alight-  
ing places and hangars. Thus, with  
a person flying from a half-mile to  
a mile above the ground, it will be pos-  
sible to glide to the next landing place,  
should engine trouble develop between  
stations."

"After the war flying will become  
safe, popular, and comparatively  
cheap."  
Wright said that the need was for  
a low-priced machine, with about 100  
horse power and efficient wings and  
high stability, so that little landing  
space is needed.

The Aero Club of America is cam-  
paigning for air travel routes, so that  
manufacturers of airplanes can de-  
liver their product to army training  
stations by air. The air line will be  
between New York and San Francisco  
and will be known as the "Woodrow  
Wilson Aerial Highway" in com-  
memoration of the \$640,000,000 war-  
airplane budget.

**TEA GUEST PROVIDES SUGAR.**  
Strange Social Customs Arise From  
British Sweetening Shortage.  
Compared with America's average  
consumption of 90 pounds of sugar per  
person a year, England and France  
are almost without this commodity.  
The English person, who in pre-war  
times consumed his 93-13 pounds a  
year, is now allowed one-half pound a  
week. In Paris the allotment is but 18  
pounds a year.

The British government has been  
careful to announce that it cannot  
guarantee that even the half-pound al-  
lotment can be obtained, and a sugar  
card for a family is issued only for  
the number of persons sleeping in the  
house.

In a public restaurant, if sugar is  
taken in cereals, the person must do  
without sweetening in his coffee. It is  
now customary for a lady, invited out  
to tea, to take her sugar with her.  
She is also expected to bring her own  
cake.

**Married Ten Years.**  
"A rather remarkable couple. I  
should say," they have been married  
ten years and she still listens with de-  
ference when he expresses an opinion."

**Bravery and Temperance.**  
No man can be brave who thinks  
pain the greatest evil; nor temperate  
who considers pleasure the highest  
good.—Cicero.

Of course it is possible for a man  
to buy his popularity, but it is liable  
to the fluctuations of the market.

"Bethany" means "the house of  
dates." We are thus reminded that  
the palm tree grew in the neigh-  
hood of the Mount of Olives. The  
word Phoenicia which occurs in Acts  
11:19 and 15:3 is probably derived  
from the Greek word for palm.—Ex-

### AMUSEMENTS

**AUDITORIUM.**  
"The Call of the East." Good sized crowds saw the clever program shown at the Auditorium. The Retreat of the Germans at the Battle of Arras. The Arbuckle comedy "The Country Head." The Heart-Patrol Weekly and Sessue Hayakawa in "The Call of the East" proved the greatest picture shown at the Auditorium. This house and then Arthur C. Williams, who has just returned from the front, gave his war experiences in a nice plain way, that touched the hearts of all who were present. Today the last showing will be seen of the Retreat of the Germans at the Battle of Arras, also "The Call of the East." In this production Sessue Hayakawa, and a fine supporting cast are seen to great advantage.

In "The Call of the East" a remarkable photograph of the Orient and the Occident. Sessue Hayakawa, who has once more to his native land which he deserted some time ago to come adventuring to the great United States where he first studied English and English literature at the University of Chicago.

"The Call of the East" was written by Beulah Marie Dix who also arranged the story for the screen especially for Hayakawa. Tsuru Aoki, winsome little wife of the actor, who has played opposite him in many previous Paramount productions, is seen again in support of her husband in this photograph.

**Hans and Fritz.**  
The musical comedy sensation novelty of the season is "Hans and Fritz." This is the R. Dix's Holland concert that in comic newspaper cartoons had made the nation laugh for the past several years. The two Dutch kiddie that kept the fun moving in the cartoons are right on the job in the play. The gayest of gay songs, merriest of jests, and most amusing of situations are said to mark the production throughout. It is listed for presentation here at the Auditorium theater on Xmas day for two performances.

**"The Cold Deck."**  
The Buffalo Bill of the silent drama will visit us next at the Auditorium in an entirely new characterization, a deviation from all past portrayals. He will be seen as a gambler in a story of California in the early fifties.

Instead of the usual Hart habiliments he dresses the part in high beaver hat, old fashioned stock and frocked shirt, flowered waistcoat and broad-brimmed coat and the polished boots of the cowboy.

Wm. S. Hart in "The Cold Deck."

period. But, to those who can only picture Hart in his past delineations, it can be safely said that he is striking an appearance in this costume as he has in other western outfits.

The story of this latest Hart effort which is entitled "The Cold Deck," is centered in the Yosemite valley, the wonderland of the West where the most dramatic episodes take place in and among the towering redwoods of the primeval forests.

Hart and his company spent several weeks in this wild country and the camera man has recorded the drama's setting in a scenic panorama. This is not a Airtel feature, but a picture made by Thomas Ince and sold to state right buyers as a complete production. It has proven to be a big sensation and capacity houses have ruled.

**Al G. Field.**  
Notwithstanding the fact that in his minstrel program this season he is offering a national entertainment more elaborate than ever before, and that the cost of everything has increased more than two-fold, Al G. Field announces he will not depart from his annual slogan, "Admission Prices From a Dollar Down." He is determined to retain the combination of quality and popular prices which have made his annual minstrel productions a national institution, with the average American home as his support. He regards this principle as a personal bond between himself and his audience, and to maintain it this year he has had to effect many adjustments. The cost of railroad transportation and other expenses are reduced by playing longer engagements in the various cities on his route, and "consolidating" traveling. As a part of this plan, too, he season has been opened earlier than usual, and will be extended somewhat later than customary.

The Al G. Field Greater Minstrels will appear at the "Dollar Down" schedule of prices at the Auditorium theater two days Thursday and Friday Dec. 21-22.

**Auditorium Notes.**  
J. W. Dickens was in town yesterday paying the way for the Al G. Field's minstrels that come to Newark for two days Dec. 27-28. This is the slow end. It is well known that he is home for a few days as his company is laying off the week before Xmas.

June Caprice, noted Fox star is seen at the Auditorium Sunday in her latest photoplay "Miss U. S. A." Miss Caprice always a welcomed visitor to Newark and drew capacity crowds. A two reel comedy will also be shown.

The Manx-Man, Hall Gaine's noted story, is soon to be screened in Newark. It comes for one day, the date being Dec. 26.

**GRAND.**  
Bessie Barriscale.

A scene from the opera "Faust," staged with all the realism of detail that ever marked its legitimate presentation, is one of the spectacular features of "The Sparrow" the Triangle Kay Reel play in which Bessie H. Jones presents Bessie Barriscale as star. The scene serves as the setting for that part of the drama in which Miss Barriscale as a crippled girl sits back of the scenes and sings the role of Marguerite while her twin sister, also played by the star, enacts the part on the stage. For this effect Director West obtained permission for the use

To the accompaniment of a 60 piece orchestra John Lince and Albert Cody sang the balcony scene from "Romeo and Juliet" while three cameras from different points of vantage registered the ensemble. At the Grand on Thursday and Friday.

**ALHAMBRA.**  
Wednesday and Thursday.

"Madge Evans is the best kiddie actress on the screen today." This is the statement made by a prominent movie critic regarding the famous little World's Kiddie star. Madge fully and completely lives up to this high praise in "The Adventures of Carol," her newest World picture Brady made. She is called upon in this new production to portray a great variety of emotions and, seldom did little that she is, she carries everything off with supreme ability.

As better Madge's merit as an actress, a brilliant company of screen artists has been assembled in her support. Also great scenic effects have been secured to add to the interest of the attraction and an exceptional wonderfully interesting, wholly unusual story has been secured. Believe when we say that "The Adventures of Carol" will satisfy you and entertain you as few films have done and it will leave a mighty pleasant taste in your mouth, too. See "The Adventures of Carol" on Wednesday and Thursday at the Alhambra theater.

### DOWNEY PUTS UP FINE EXHIBITION AGAINST CHAMPION

[ASSOCIATED PRESS TELEGRAM]

Columbus, Dec. 18.—Ted Lewis, welterweight title holder, had a shade the better of Bryan Downey of Columbus in a hard 12-round fight here last night in the opinion of highly credentialed criticism was given. Lewis dropped Downey to his haunches with a short left jab in the eleventh round as Downey was coming in but it was not a clean knockdown.

The champion used his left effectively but was forced to extend himself to the limit.

Most of the bout was at close range and it is at this style of milling that the champion is supposed to be superior, but in the tough Columbus boy he found a ready and willing mixer who went him one better at the close-range stuff.

The only semblance of a knockdown that came about during the entire bout was in the eleventh round, when Downey rushed at Lewis and ran into a straight right and was sent partially down. Even Lewis was in doubt as to whether or not it was a knockdown as he attempted to assist Downey to his feet.

In the ninth round Lewis received a bad cut over his left eye, probably caused by a glove when they were against the ropes in a neutral corner of the ring. However, Downey carried the champion a terrific clip in this session and a collection which netted \$155.96 was taken up by members of the organization.

First to contribute to the fund was Champion Lewis, who opened the collection by donating \$25, and it goes without saying that he is grateful for life with the members of the organization.

Johnny Kilbane, champion of the featherweights, was a ringside spectator and addressed the fans. He said that he is donating all of his services to the Red Cross and that he has been after him since he entered the service would have to wait until this war is over.

Walter Hughes acted as the third man in the ring for the main bout and the referee while Al Hart refereed the opening number. Earl Roach, as usual, did the announcing.

## If Your Child Is Saving In a Penny Bank, What's He Saving For?

Teach him not to hoard merely, but to have an unselfish purpose in his saving.

You can show him no higher motive than a patriotic one.

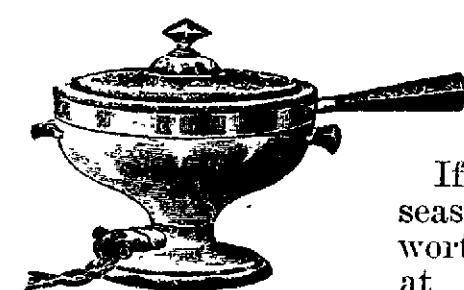

Have his penny bank transformed into a Government Thrift Stamp Book, and teach him two lessons at once.

U. S. Government Thrift Stamps are to help furnish money to win the war. They cost 25c each and can be pasted in books of 16. A bookful and 12c may at any time in December or January be exchanged for a certificate which will be worth \$5.00 in 1923. After January they cost a cent more per month.

War Savings Certificates pay 4% interest compounded. They are just as safe as Liberty Bonds.

You can buy Thrift Stamps at the postoffice, of any mail carrier now and at many other places a little later.

## GOOD SEAT SALE FOR THE BOWSER- IRSLINGER BOUT

Henry Irslinger has arrived in the city and stated a course of training for his match with Paul Bowser in this city Thursday evening at the Auditorium theatre, the seat sale for which opened this morning. By the rapid way in which seats are being taken the indications are a big capacity house will greet the two gladiators when they step onto the mat.

Irslinger looks every inch the athlete and will give the local idol the tussle of his mat career. He has thrown some of the best men in the country and for years held the title of middle weight champion of Europe. He weighs 165 pounds and will make several matches during his trip to Ohio and adjacent territory, previous to his return to Atlantic City.

Bowser admits that he has one of the toughest propositions on hand which he could have booked but he believes in his prowess and is confident of ultimate victory, but taking on a man of Irslinger's calibre lays the way open for defeat. Bowser will put forth every effort to retain the championship and as the two men are evenly matched the contest will be full of thrills and excitement.

The Fishbaugh-Tallman bout is the talk of the local circle of mat fans also. The crack Newark lad will weigh 130 pounds while his Columbus opponent will tip the scales at 135. Fishbaugh is in the pink of condition and will give a good account of himself. Ralph Lane and Harvey Smith, weighing 115 pounds will be an attractive curtain raiser. Then Jimmie Whitehead of the Columbus Y. M. C. A. is matched with Clarence Keck, one of Bowser's best pupils in the 135 pound class. The bill is a classy one throughout and no doubt will attract many people to the ringside. Box office open at 10 o'clock every morning.

## RED BLOODED MEN FIGHTERS

THEY RULE THE WORLD  
Red blooded men are born leaders in every walk of life and fight intelligently with both brain and muscles. They are always live wires, smiling and full of ginger; keen, alert on their toes and ready for anything that comes their way. Work is a pleasure and they land on top every time.

You will not find a strong successful man or woman trying to plug along with poor health or weak nerves. They know better they are wise and see to it that their blood has plenty of good, fresh iron and their nerves at all times loaded with Phosphates—the nerve food.

A leading doctor says: "Show me a strong, healthy successful man or woman and you can bank on it every time, their bodies are just loaded with Iron and Phosphates." Another prominent physician says: "There is no need of anyone going through life sickly, miserable, played out, fagged and nervous when Phosphated Iron will always put energy and vigor in the body, mind and nerves." This same doctor also said: "With the system loaded with Phosphated Iron you can fight life's battle at any stage of the game and be a winner at every turn."

Mr. Run-Down man or woman in any stage of life, if you feel all in your nerves are all shot, and life seems like one continual drag and drudgery from day to day, get next to yourself, wake up, take a brace. Lay in a supply of Phosphated Iron and take a new lease on life. You will once again feel like a live one and face the world with the smile that wins. Are you game? To insure physicians and their patients receiving the genuine Phosphated Iron it has been put up in capsules only, so do not allow dealers to give you tablets or pills. Insist on capsules.

## PUBLIC SPEAKERS' CLUB ORGANIZED MONDAY

For some time past a number of citizens have been quietly talking among themselves about forming a club to develop public speaking.

There seems to be a desire on the part of a number of business men to be able to make short addresses when called upon to do so, but the lack of courage and opportunity to cultivate the habit has been wanting.

A meeting was held a few weeks ago and another was held last evening at the Y. M. C. A. rooms at which the following gentlemen were present: Messrs. C. C. Metz, C. E. Root, Dr. E. V. Prior, K. I. Dickerson, W. J. Bowers, C. F. Leuder.

A number of matters came up for decision among which was the election of officers. The following were elected for the ensuing year:

President—C. C. Metz.  
Vice President—Dr. E. V. Prior.  
Secretary—W. J. Bowers.

It was decided to call the organization the Public Speakers' Club. The next meeting to be held Monday evening, Jan. 7, at the Y. M. C. A. rooms at seven o'clock.

It was also decided that the presiding officers at each meeting rotate in alphabetical order thus insuring each member an opportunity of presiding over a meeting in the capacity of either president, secretary or speaker.

Those interested are asked to be at the next meeting. There are no dues.

## NEW BUS LINE AT CAMP SHERMAN IS BOON TO SOLDIERS

(ASSOCIATED PRESS "TELEGRAM")  
Camp Sherman, Chillicothe, O., Dec. 18.—Eighty-third division officers, graduates of the first officers' training camps, are awaiting anxiously the announcement of promotions to fill vacancies in the division caused by transfers. The list of promotions was looked for before the arrival of the 700 newly-commissioned officers, who reported here Saturday.

In many cases men who failed to qualify for commissions at the first series of camps returned to the second and now hold higher commissions than their fellows in the first camps. It was expected that promotions would be made to help obviate this difficulty. It was said at division headquarters today that the list of promotions had not been completed and would not be available for some time.

Camp Sherman is receiving men from Indianapolis, Columbus, and other midwestern central recruiting stations because of the influx of enlistments up to December 15. It was said here that not over 25 of the thousands of men who are expected here as voluntary enlisted men came out to the camp and enlisted.

With the construction of an electric line to the camp under contemplation and a new bus line company operating cars to and through the grounds on a regular schedule, taxicab men predict that many of them will be forced out of business soon. Even though the electric line does not materialize now the bus line will reach parts of the camp which the taxis do not and will charge but 10 cents to camp and 5 cents additional through the cantonment. The taxis charge 25 cents everywhere.

The bus line will run from Chillicothe to the main post exchange and then to both the east and west sides of the camp. This change will mean a saving of thousands of dollars to the selectees, in addition to permitting them to go into town often.

Ohio and western Pennsylvania selectees still can count on Christmas furloughs for 30 per cent of their number, it was announced at division headquarters today. No word has been received here of limiting the furloughs to men who live within trolley distance of the camp. The men can go anywhere so long as they are given permission and get back within the time limit. Lieutenant Colonel P. T. Hane, division chief of staff, said today.

The only limitation on the order issued by Major General Glenn, permitting 30 per cent of the selectees to go to their homes for Christmas, in prospect is the further spread of measles, mumps, or other contagious diseases.

Under new orders to local draft boards from Washington, selectees from the last 20 per cent who are scheduled to come here shortly are being sent directly to the army posts, especially for coast artillery service, it was said today.

## ALL READY FOR NEW COUNCIL TO ASSUME DUTIES

The present city council finished its business under the present administration, and prepared and paved the way for its successor which will assume its duties the first meeting night in January, 1918, when the gavel fell last night at 10:10 o'clock and Dr. C. B. Keller, the presiding officer declared its labors finished and adjourned the meeting.

Previous to adjournment the members, together with the members of the police and fire departments presented Dr. Keller with a fine up-holstered rocker, the presentation speech being made by City Solicitor Ralph Norpell. Farewell addresses were also made by the retiring members and several of the city officials.

An ordinance was also passed over Mayor R. C. Bigbee's veto, increasing the salary of City Auditor Nelson Dodd from \$1,800 to \$2,100 per year and also the salary of City Treasurer Cliff Frye from \$600 to \$750 per year.

The council was called to order at 8:05 o'clock with Dr. Keller presiding and members Frank Knauber, Harvey Alexander, W. C. Seward, Sylvester Beadle, Joseph Stasel, Dr. J. G. Shirer, T. D. Keyes, Thomas Adams and Richard Curry present. Clerk J. S. Woodward read the minutes of the journal, which was approved and the various committees then submitted their reports.

The street committee recommended that the proposed improvement of Day avenue be postponed at this time and that a street lamp be placed on Eleventh street between Granville and Hoover streets.

The public service committee recommended that a communication from the national council of defense be referred to the local council of defense.

The law committee recommended that the fees of the mayor and chief of police be regulated by council so that they may recall the same fees paid justices of the peace and township constables in similar cases. All committee reports were received and filed.

City Auditor Dodd reported that the state industrial commission of Ohio had rejected the proposed bond issue for motor truck apparatus, and which amounted to \$11,000, and that it would be necessary to introduce another ordinance and advertise the same.

The local health board reported that owing to an unforeseen emergency there was not sufficient funds on hand to meet the same and recommended legislation for the appropriation of three sums, \$200, \$100 and \$50, to take care of the present requirements.

An ordinance, given its first reading provided for a special levy or assessment for the paving of St. Clair street between Elmwood avenue and Clinton street. It was fathered by Councilman Curry and was passed under a suspension of the rules.

Another ordinance by Councilman Curry providing for a special assessment for the paving of Evans street from Charles to Smith street was also passed under a suspension of the rules.

An ordinance by Councilman Knauber provided for the trimming and care of all shade trees projecting over the streets and sidewalks, by property owners. Same to be trimmed eight feet above all sidewalks and roadways, and in cases where owners refused to comply with the ordinance, the work to be done under the direction of the public service director and collected in the same manner as other special assessments. On a motion to suspend the rules and pass on its second and third reading it lost out by a vote of 6 to 3, a three-fourths vote being necessary, and it goes over to the incoming council.

An ordinance on its second reading, introduced by Councilman Curry, which fixes the costs of the mayor and chief of police under city ordinances, failed to receive a second, and it likewise goes to the new council for final action.

An ordinance on second reading, changing the name of German street and naming a new street, also failed of passage by a vote of 6 to 3. It also goes over as a problem for the new legislative body.

The ordinance introduced by Councilman Shirer, providing for the change of name of Pataskala and Baker streets to National Road, also met a like fate by a vote of 5 to 4 and goes over to the next meeting.

An ordinance by Councilman Knauber, on its third reading, which had been passed by council, Mayor Bigbee's veto and section relating to the salaries of City Auditor Dodd and City Treasurer Frye, was passed over the mayor's veto. It fixes the salary of the city auditor at \$2,100 per year and the city treasurer at \$750 per year.

Councilman Knauber in support of the ordinance addressed the members telling of the increased duties of the office, and which included the keeping of an invoice of city tools and equipment. He states that he knew that thousands of dollars worth of tools and supplies had been pilfered and disposed of and charged city employees with carrying away everything imaginable with the exception of the city hall.

Councilman Seward was on his feet in an instant and replied stating that he had endeavored to bring about a reform along the lines mentioned for the past four years, but had never met with the support of any of his fellow members and it was indeed gratifying to him at this time to know that his fellow member had at last experienced a change of heart.

Auditor Dodd also made a few brief remarks telling of the increased work in his department. He stated that the salary of the office had been \$1,800 since 1907, and that the work of the office had been doubled, in fact there had been a greater volume of business in the last year than in the previous several years. Councilman Curry also made a few remarks pertinent to the ordinance, stating that even if the

members were playing politics he would support the ordinance. It was put to a vote and passed 8 to 1, Councilman Seward opposing it.

Resolutions on first reading were then introduced and under a suspension of the rules and adopted as follows:

By Mr. Knauber—Awarding the contract for legal advertising when necessary to advertise in two papers to the Advocate and Tribune; when necessary to advertise in one paper only, to the American-Tribune.

By Mr. Keyes—Authorizing the board of health to draw upon the contingent fund to the amount of \$350 to take care of emergency cases.

On second reading: By Mr. Knauber—Declaring it necessary to improve Church and Front streets by construction of a sewer. Adopted under a suspension of the rules.

An ordinance by Mr. Knauber declaring it necessary to improve Church street from Second street to Eleventh street was withdrawn and permission given to refer back to first reading. It was then amended to read from Front street to Eleventh street and was adopted under a suspension of rules.

Under the head of miscellaneous business Councilman Shirer addressed the council, referring to the increased population of the city, now estimated at 32,000, and told of legislation which would be needed to meet the same.

Health Officer W. H. Knauss spoke of the obnoxious fumes arising from the sewer manholes in the North End, and stated that the trouble would soon be remedied.

President Keller then addressed the members stating that it was with regret that the time had come to say farewell. He had been a member of the council for six years, three of which had been passed as the presiding officer, and that while the pathway was not always smooth, yet there had been a pleasure in presiding over the deliberations of his fellow members. He thanked all for the loyal support which had been accorded him, and stated that he had cast politics aside and endeavored to do his full duty at all times. He wished to thank every member the greatest success, and predicted for his successor a pleasant tenure of office.

City Solicitor Ralph Norpell then took Dr. Keller by the arm and lead him to one side of the room and in a flowery and complimentary talk presented him with a handsome upholstered rocker. He stated that not a single member was desirous of seeing the presiding official leave without showing their appreciation.

Dr. Keller responded, saying among other things that it was indeed a pleasant surprise and that words were inadequate to express his feelings at the mark of appreciation of his fellow members and also of the men of the fire and police departments. He thanked them all and said it would be a constant reminder of his pleasant association with them and when seated in its comfortable depths before his fireplace it would bring back fond memories of happy times spent with them all.

Then came the farewell addresses of the out-going members. Councilman Curry being the first called upon. He stated that he had represented the people of the Sixth ward for the past two years and had never missed a meeting of the council or any committee of which he had been a member and that he had always received fair treatment at the hands of his fellow members and the presiding official, although he was the only Democratic member of the body.

Councilmen Adams, Alexander, Shirer, Stasel, Beadle and Seward followed the latter as usual taking a slam at the reporters present. In his remarks Dr. Shirer advocated taking the necessary legislation for the establishment of the office of police judge, stating that under the present arrangement it gave the mayor an opportunity of making the office a mercenary one, giving the mayor every chance in the world of working an injustice in all cases and giving the poor devil brought before him the worst of it in every way, the mayor in most cases being anxious to secure the fee instead of working towards the end of justice.

The subway proposition was also touched upon by various members who recommended early action by the incoming council, but it remained for City Solicitor Norpell in his farewell address to advance the reasons why it would not be practical at the present time. Solicitor Norpell told of the hard work he had done in the subway, stating that the contract would reach one department of one of the railways interested and they would request a change, then reach another and it would find fault, and continue along those lines until he had rewritten it nine times, in order that the railways might be satisfied and agree to inaugurate the work. Now that it was impracticable to start the same on account of present conditions he was working towards the end that the \$246,000 for which the city is bonded, might be invested in such a manner that the returns would pay the interest on the bonds. He predicted that the subway would be a reality in proper time, but that if it was started at the present time it would cost more than double the original estimate.

City Auditor Dodd and Safety Director H. H. Scott also spoke a few words of regret at severing the pleasant relations which had existed for the past two years, after which Councilman Clerk J. S. Woodward a unanimous vote of thanks for his painstaking work in keeping the record. Auditor Dodd stated that State Examiner Heck had commended Clerk Woodward most highly for his efficiency, and the latter replied in a neat speech.

President Keller then rapped the gavel, declared the meeting adjourned and the old council went out of existence, unless it should be necessary to call them together again for some special reason before the first of the year.

The new council will be composed of R. L. Williams, president of the same; P. W. Faust, T. A. Bazier and Frank Knauber, councilmen-at-large; C. W. Redman, first ward; J. R. Ashbrook, second; Phil Baker, third; T. D. Keyes, fourth; S. O. Riggs, fifth, and Lester S. Newkirk, sixth.

# MAKE IT A RED CROSS CHRISTMAS

## Translating the Christmas Spirit into Service

Let us here in Newark and Licking county make it a Red Cross Christmas. This afternoon 2500 Newark school boys and school girls are taking part in the nationwide drive for 10,000,000 new members of the American Red Cross. The children's success this afternoon will mean much to them and to the great cause they represent. All Red Cross memberships will expire December 31, so let nobody deny the school boy or school girl's appeal.

While the canvass has been thorough undoubtedly many people have not been solicited. If the reader is one of that number, go to the nearest telephone and call some school boy or girl of your acquaintance and ask to be enrolled. It costs \$1. The money goes to help our soldiers and sailors. It will help us to win the war.

By MARIAN BONSALE DAVIS.

THE war lays its hand upon us this Christmas.

The chiming carols may seem almost lost amid the blasting of the guns. The candles in the windows of our homes will shed their little beams into a world brilliant with liquid flame. We will celebrate Christ's birthday singing "... and on earth peace, good-will toward men," while we urge our sons to train their minds and their bodies for the killing of their brothers. But the Red Cross has taught those of us who have suffered, to see double: and it will be a Red Cross Christmas this year, wherever Americans are grouped together.

This is what I mean by seeing double: there are over 5,000,000 members of the American Red Cross and the campaign drive now opening should result in over 15,000,000. That doesn't seem big, for we have become used to larger figures. But the woman off in some lonely place, far from the inspiration of her Chapter, making with her work-worn hands things to keep our soldiers and sailors warm, the dressings that will help the healing of some wounds—that one woman seems great. She is the spirit of the Red Cross.

The War Fund of \$100,000,000, generous as it was, has a way of turning round and seeming small. Twice that sum was spent in this

country last year for candy. We have learned to talk and think in billions. But one cent can buy enough iodine to disinfect a wound—and the disinfection of that wound may save a human life.

And, after experience with the wounded, there comes the time when one sees in the horror of the shattered flesh, the beauty of the spirit.

IT is a strange holiday for us Americans, with our new excitements and our new emotions; our new soldiers in cantonments or foreign trenches, and our new sailors on mined seas; reports of our first dead, and our letters from the front; our fears and our elations; and the occasional flash of vision of hundreds of thousands of boys and men in khaki in miles upon miles of army barracks.

Many of them, too, are aching with new tenderness.

It is the time of times, in our new puzzlement and need, to sing the Christmas carols of glad prophecy. The city chimes and village organs, singers going from door to door, will chime and peal and carol as they never have before, the Christmas message of good things and great joy which shall be to all people.

We owe it to our men to sing it with full hearts, so that the spirit of it will reach their battleships and their camps. They must never forget the happiness of this Christmas, the last, doubtless, before they go across to offer—all they have.

The Red Cross is trying, and expects to send every man in training a Christmas parcel of Christmasy things as a symbol to show him how much we care, and the things we cannot say in words. The boys in their barracks will be celebrating, swapping presents, joking and singing, adding a Christmas song to the familiar round of swinging choruses. But before another Christmas perhaps a million more young soldiers will have followed them overseas.

SOME of them, until the day they put on the uniform, knew only school fun and home love. Their stockings were darned, their favorite things to eat were cooked, every minute of their holidays planned, their young hopes regarded with yearning eagerness by their families. Some of them were born seemingly to be knocked around, and have the hard and lonely end of things. Both are going abroad together now, serving the colors, defending our lives with the offer of their own.

There will be a day when one of these boys will be hurt. Suddenly his strong young body will be quite helpless. He will be far away in a dif-

### President Wilson's Red Cross Christmas Proclamation

THE WHITE HOUSE, Washington.

TO THE PEOPLE OF THE UNITED STATES:

TEN MILLION Americans are invited to join the American Red Cross during the week ending with Christmas Eve. The times require that every branch of our great national effort shall be loyally upheld and it is peculiarly fitting that at the Christmas Season the Red Cross should be the branch through which your willingness to help is expressed.

You should join the American Red Cross because it alone can carry the pledges of Christmas good-will to those who are bearing for us the real burdens of the world war both in our own Army and Navy and in the nations upon whose territory the issues of the world are being fought out. Your evidence of faith in this work is necessary for their heartening and cheer.

You should join the Red Cross because this arm of the National Service is steadily and efficiently maintaining its overseas relief in every suffering land, administering our millions wisely and well, and awakening the gratitude of every people.

Our consciences will not let us enjoy the Christmas Season if this pledge of support to our cause and the world's weal is left unfulfilled. Red Cross membership is the Christmas spirit in terms of action.

(Signed)

WOODROW WILSON,  
President of the American Red Cross.

ferent country, where they do not speak his language, and no one of home will be around him. But if we will have done our duty—his eyes will see a Red Cross. It may be on the arm of a surgeon and a nurse. It may be on the flag waving over the hospital that can save his life.

To put it there—to send the Red Cross to Europe—that is making it a Red Cross Christmas.

Our hands will tremble when we place our Red Cross candle in the window on Christmas Eve. And as we start the flame glowing

through the cross, it will come to us anew that the Red Cross message and the Christmas message are the same.

WHILE they flicker, while the carolers sing and the chimps peal, somewhere in Europe they will be bringing in the wounded.

A train, with the Red Cross painted on the coaches, will be pulling into some railroad station. Motor ambulances in long lines with the sign of the Red Cross will be waiting for their human burdens. Men and women with skillful hands and the right to wear the Red Cross brassard will be ready for the stretchers.

As we stand here the stretchers

are carried past us in a slow procession. It is just a sprinkling, just a thimbleful of the day's harvest of wounded—only two or three hundred. Yet the procession seems so long—it seems so unendingly long. The faces are like the faces of our men at home—here like our father—here like the man who lives across the street—and here a slender boy whose eyes we think we cannot stand to see.

It is all so quiet as the stretchers file by. The French officer of high rank with many medals, the peasant, the man who used to collect the garbage, the black man from Africa who does not know why he is called from home to give his life, pass by without a moan. Some are

blind. Some will die. All are grievously hurt.

Perhaps it is the presence of God there where so many men are close to death that makes the old scales drop from our eyes. For among these mutilated that is what happens to us—the old values, the old conventions drop away forever. Each crushed or broken body becomes so infinitely precious, as we see it dominated by spirit. This black man, this blind boy have lifted us up. With a new sense we know that the things which are seen are temporal, but the things which are not seen are eternal.

And lifting up our eyes from the stretchers, we see the Red Cross. We see it on the arm of the surgeon, giving his skill. On the arm of the nurse, giving her youth. On the insignia of the ambulance men, giving their careers. We know that it was painted on the cases carrying these surgical supplies and these healing drugs. We know that it will wave above the hospital to which these men are going to have their chance of life.

From this minute the Red Cross becomes a part of us, and we become part of the Red Cross.

WHILE we do our Christmas shopping this year, while we live these days, of new exhilaration—these thrilling days that are like draughts of the richest wine of life—now, before we suffer, Red Crosses will seem to be every where. In the stores among the gleaming fabrics and the gifts for soldiers, among the pretty toys on the Christmas trees, in railroad stations, in factories, in theatres, in markets, in churches, in settlements, in homes, in schools, in the streets there will be hundreds and hundreds of Red Crosses. Everywhere there will be picturesque booths, with someone in uniform, smiling and happy, asking for new members. And it will all seem like some wonderful, beautiful game.

Let us take all the strength and inspiration that it gives us. Truly it is beautiful and it is wonderful—so much of these things that it will make many men and women see double: see with the eyes of the spirit the Red Cross on the battlefield, on a brassard that is stained with precious blood.

The campaign drive for 10,000,000 members will be on! But it won't seem large. Yet one new member has potentialities of service beyond any computation.

THEATRES will be crowded, and the gaiety, when it is not cruel, will help to make the world go round; so many men in uniform and beautifully dressed women, the orchestra playing "The Star Spangled Banner," patriotism beating high!

But we know it is a changed world. There is something sinister in the war-tax at the box-office. Underneath the laughing there is choking. In France, boys are going over the top; and through the strains of "The Star Spangled Banner" there seem to echo the words of the French officer spoken over the graves of the soldiers killed in the first American engagement in France, in November of this year:

We will, therefore, ask that the mortal remains of these young men be left here, left with us forever. We will inscribe on their tombs: "Here lie the first soldiers of the Republic of the United States to fall on the soil of France in the cause of Liberty and Justice." The passer-by will stop and uncover his head; travelers and men of heart will go out of their way to come here, and pay their respective tributes.

Private Enright!

Private Gresham!

Private Hay!

IN THE NAME OF FRANCE  
I THANK YOU.

God receive your Souls!  
Farewell!

There is a mother who works in her home and her church for the Red Cross who said that the highest points of her life, and her deepest happiness were the times her son, a new young second lieutenant home on a furlough, talked with her as they washed the dishes together at the kitchen sink.

How it is these humble things, and not the dramatic ones, that bind us together and thrill us now! How to those whom the war has touched, people are not so much Generals or Colonels, or Presidents or servants or ice-men or tailors or scrubwomen or Kings, as fellow-human-beings; and how the hope of carrying on what thousands of radiant youths have died and are to die for, centers upon the little children.

THIS is thinking in Red Cross ways. For the ideal of the Red Cross Treaty signed in Geneva by the delegates of nations, is merely this: that every suffering human being in war, whether belonging to friend or enemy, shall be sacred to the Red Cross. Yet the symbol of the treaty is so great, that it is the meeting-ground of the most conflicting races and the most conflicting creeds; of men and women and children; of black and white and yellow and red; of rich and poor; of Jew and Gentile; of Catholic and Protestant; of Buddhist and Confucian; of artist and artisan; of materialist and idealist; of soldier and civilian; of general and private; of Foe and Adversary—the Red Cross!

So we put candles in our windows this Christmas Eve, that the flickering point of light shining through the Red Cross on the window-pane may say to the wayfarer and the soldier and the sailor, things too great for words. They will understand. For in this overwhelming trouble we have begun to be simple of heart together. The poor and the rich have begun to understand the other's sacrifices.

And so we can sing Christmas carols and not be hypocrites; for the guns that are killing men so anguishingly dear to us are blasting out old wrongs and old hypocrisies.

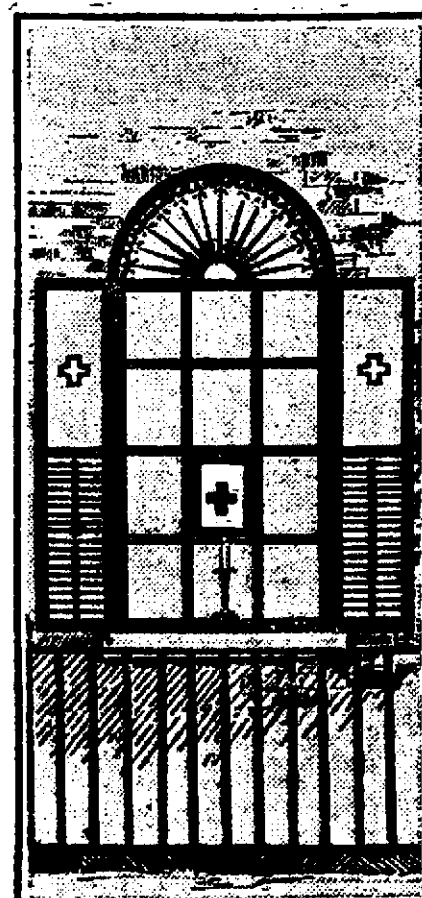

The Red Cross is our home way to help. The need is too great for us to compass even in our minds. The organization of the American Red Cross can do the things we cannot do ourselves—it can arrange the shipping, and carry our gifts, it can get them to our men, it can, if we let it, look after our men's little children left at home.

If you are not a member of the Red Cross, you are needed beyond your imagining.

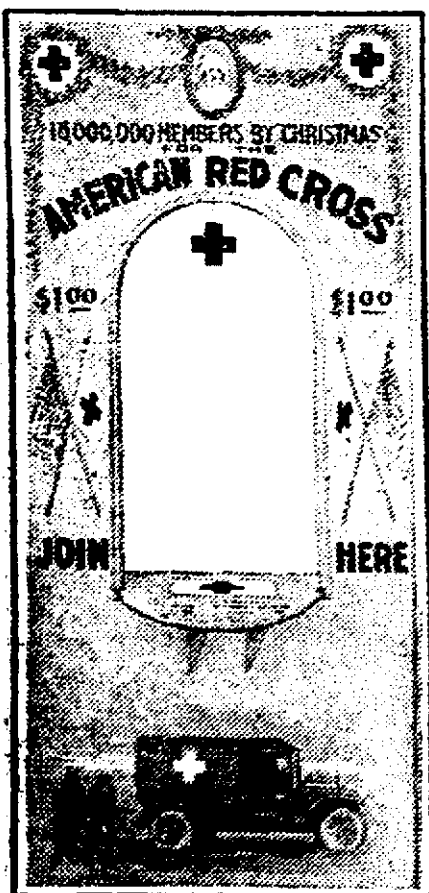

Please help—because you are so needed.

To get the Red Cross to our boys and our men—

This is a Red Cross Christmas!

MILLIONS OF WINDOWS, ON CHRISTMAS EVE, WILL DISPLAY THIS SYMBOL OF LOYALTY TO THE RED CROSS IDEA. EVERY MEMBER IS ASKED TO SHOW IT, WITH A LIGHTED CANDLE SHINING THROUGH.

BOOTHS LIKE THIS ALL OVER THE UNITED STATES WILL MAKE IT EASY AND CONVENIENT TO JOIN THE RED CROSS BEFORE CHRISTMAS EVE. THERE WILL BE ONE WAITING FOR YOU.

in Washington Street.

**Coal for West Enders.**  
A car of precious coal was distrib-  
uted among a large number of people  
in West Newark this morning,  
and it didn't cost them a penny. This  
is how it happened. An accident to  
one of the cars of a west bound coal  
train caused the fuel to be scat-  
tered along the track from the vicin-  
ity of the Jewett factory to the  
rail mill. The crop of coal along the  
track was quickly harvested.

**A RAY OF HOPE**

An original and copyrighted plan of lending money on Furniture, Pianos, etc. The following features make the Twenty-Payment Plan most desirable and absolutely fair to the borrower.

- 1—It permits twenty full months to repay your loan, should you wish it.
- 2—It relieves you of the responsibility of promising to pay large payments.
- 3—However, the borrower if he desires can pay in part or in full at any time.
- 4—Interest is charged at the legal rate only for the actual number of months loan is carried.
- 5—You can pay in full in one month or twenty months and the interest is charged only on the actual amount of cash still outstanding.
- 6—In other words: You are under no obligation to carry the loan any longer than you desire. The faster you pay the less it costs.

\$2.50 Monthly Payment on \$50.  
\$3.75 Monthly Payment on \$75.  
\$5.00 Monthly Payment on \$100.

Interest at the legal rate. No extra charges for papers, appraising, etc. Ask for free folder which explains The Twenty-Payment-Plan in detail.

**ALADDIN ALUMINUM**  
Makes Ideal Christmas Gifts

"Merry Christmas" rings joyously in our ears on only one day in all the year. The gifts which we give and gifts which we receive are tokens which remain throughout the year—and each year finds us giving gifts with more practical value.

This year we know of no other gift with more practical value than Aladdin Aluminum. What housewife would not care for these beautiful and conveniently made Aladdin Cooking Utensils. Contrast Aladdin's finish inside and out, with all others—it is just like silver and you can keep it so.

Buying the best food cheaply isn't the only way to practice economy in the kitchen. The right utensil is just as important as the right roast. You don't buy kettles every day as you do roasts—the kettle has to last a generation. That's why we recommend Aladdin Aluminum.

To help introduce Aladdin utensils to you, we have arranged with the Aladdin factory to sell a limited number of the popular Aladdin Double Boilers. Aladdin double boilers save heat and fuel. They have an extra large water capacity—less danger of boiling dry. Look at the round handles that fit the hand. Notice how close they are together—lift it all with one hand. These double boilers sold regularly at \$2.10.

## Let Us Deliver Your Laid-Away Toys Early This Week

It will allow us to get them to you in time for you to take care of them and get them ready for Christmas, and will also help us avoid the heavy crush of delivery during the last three days before Christmas.

## Will You Carry Home Small Parcels

This year, above all others, "Carry It Home" should be the slogan of every Christmas shopper. It's a small thing for you to do, but it will mean a great deal to us in our conservation of man power and materials during this, the rush season of the year.

## Have a Big Christmas You'll Feel Better For War Duties

### WOULD YOU

Blot out from your life the memory of the joyous morning twilight when you bounced from bed to see what Santa Claus brought. Would you again enjoy the radiant faces of your own youngsters and loved ones on Christmas morning of this year?

### WOULD YOU

Broaden your vision until you can see and help your fellow workers in the office and all those others whom life has not treated so kindly as you. This you must answer this week in getting ready for Christmas—and if answered rightly, then you will find great joy on Christmas morning. It's a day of helpfulness to others. Begin this week and let the Christmas good will get hold of your heart in your preparation for others and Christmas of 1917 will be the biggest day of this year. Then when Christmas comes it will be to you

## "HIKE" CURRAN FIRST WAR HERO OF OLD DENISON

Will J. Curran, who was a member of the class of 1913 at Denison University, Granville, is the first Denison man to lay down his life for his country in the great world war. He

WILL J. CURRAN.

fell in battle in November and died a few days later in a field hospital in France.

"Hike" Curran was editor of the college publications at Granville, was a member of Phi Delta Theta and a leader in athletics. In 1914 he quit work on the Cleveland Plain Dealer to join the army. Memorial services were held at Denison participated in by President Chamberlain, Prof. T. S. Johnson, Dr. T. F. Chambers and the student body.

## THRIFT STAMPS AS XMAS GIFTS

Personal appeal is being made by the war savings committee to the 22,000 employers of wage earners in Ohio to make their 1917 Christmas gifts of bonuses, money and other presents in the form of thrift stamps and saving certificates.

Backing the employers will be the 1200 state, national and private banking institutions of Ohio, which have been requested to cooperate.

Gifts in the form of thrift stamps have a triple value—they will help the government win the war, aid the recipients in forming habits of thrift and will help trade and commerce. Thousands of people who never before had a savings account are today opening savings accounts with Uncle Sam.

Many large employers have announced their intention of responding to the call of the war savings committee and many thrift stamps and war savings certificates are being purchased for Christmas distribution.

A well known Zanesville man has just bought twenty-five war savings certificates at \$4.12 to present to his employees on Christmas. A Newark employer told the Licking county war savings committee today that he intended to give each employee a Thrift card with four stamps attached and another Newark manufacturer sent word that he wanted \$500 worth of thrift stamps. Thrift stamps are 25 cents each. Sixteen of them, plus 12 cents in cash will buy a \$5 war savings certificate before February 1. In February the price is \$4.12, March \$4.14 and so on being one cent higher each month. The war savings certificates backed by the credit of Uncle Sam, pay 4 per cent compounded quarterly, they are tax free and can be cashed at any time the owner desires.

## FROZEN FACED RHEUMATICS MELTING

They Are All Smiling Now

They never used anything like "Neutrone Prescription 99" for Rheumatic troubles before. They are sure at last that stubborn old friend, Rheumatism, is a goner, is a dead one.

"Neutrone Prescription 99" is the new plan Rheumatic Remedy that surely will surprise you the first bottle you try. It gets in its good work right from the start, you feel better right away it never fails, it sure is a wonder.

You Mr. Sufferer get on the job today, go to your druggist, and get a bottle of condensed relief, that is just what "Neutrone Prescription 99" is and no mistake. (We are handing it to you straight, 50c and \$1.00 the bottle.)

## Try This to Banish All Rheumatic Pains

People who have been tormented for years—yes, even so crippled that they were unable to help themselves—have been brought back to robust health through the mighty power of Rheuma. Rheuma acts with speed; it begins in a few days the relief you have prayed for. It antagonizes the poisons that cause agony and pain in the joints and muscles, and quickly the torturing soreness completely disappears.

It is a harmless and inexpensive remedy, but sure and certain, because it is one discovery that has forced rheumatism and sciatica to yield and disappear.

Begin the Rheuma treatment today and if you do not get the joyful relief you expect, your money will be returned. T. J. Evans always has a supply and guarantees it to you—Adv.

## OHIO BRIEFS

Sidney—Judge Barnes of Common pleas court ordered J. C. Royon, receiver for the R. Given & Sons Company, to pay a 5 per cent dividend to all creditors.

Marion—Mrs. John W. Klengel and two daughters were found unconscious in their home, having been overcome by burnt gas fumes. All will recover.

Gallipolis—Lula Harrison, convicted of first degree murder for the killing of his brother-in-law, Frank Leeper, has been sentenced to the penitentiary for life.

Tiffin—Gilbert Louas, aged 38, has been lodged in jail on a forgery charge. The police believe forgeries of which Tiffin business men for three years past have been victims, will be cleared up.

Yellow Springs—Emerson Williams, 18 years old, son of Pearl Williams, a farmer, was killed today when cutting down a tree, which fell on him.

Cambridge—James L. Walters, before ending his life by shooting himself with a shotgun, wrote two letters—one to his wife and the other to a man, who he alleges, enticed Mrs. Walters from him. In both letters Walters bitterly denounced their actions.

Cleveland—Police Prosecutor Lind late yesterday issued warrants for Benjamin Rosen and George Halaas, bakers, charging violation of the law governing standard bread weights by selling bread under the required weight.

## FIRE DESTROYS THE JOHN D. ROCKEFELLER HOME AT CLEVELAND

(ASSOCIATED PRESS TELEGRAM)

Cleveland, Dec. 18.—The removal a month ago by John D. Rockefeller of practically all of the valuable paintings from his summer home at Forest Hill, East Cleveland, saved him hundreds of thousands of dollars early this morning when the home was completely destroyed by fire.

City and state fire officials today were investigating the origin of the blaze which caused a property loss estimated at \$100,000.

The fire, which started shortly after midnight, was still burning at 8 o'clock this morning, but all that was left standing of the magnificent home was the brick foundation wall.

Incendiarism is suspected by William B. Smith, superintendent of the estate.

The fire was discovered by an employee who was making his hourly rounds of the estate. He called the East Cleveland and Cleveland Heights fire departments. The two fire departments with the help of 25 employees of the estate fought the flames for three hours.

John Engle of the East Cleveland fire department, was slightly injured when he was struck by a piece of falling timber.

Rockefeller left his home here more than a month ago.

## CANADA HAS VOTED FOR CONSCRIPTION

(ASSOCIATED PRESS TELEGRAM)

Ottawa, Ont., Dec. 18.—The English-speaking sections of Canada yesterday voted solidly for conscription that the Dominion may continue to be represented on the fighting line in the strength it has shown there up to the present time.

The French and the German-speaking parts of the country voted against the Borden government and for the return of Sir Wilfrid Laurier as prime minister.

The predominance of the English-speaking element in the Dominion makes the return of the Union government with Sir Robert Borden at its head, a certainty.

Tremendous majorities for successful candidates on both sides constituted the striking feature of the election. So great are the majorities of the Borden candidates and so large are the majorities given Liberal candidates in the Liberal constituencies that the soldier vote, when it is received and applied to the domestic vote, will make little difference in the total number of members elected to support Sir Robert Borden, or his opponent, Sir Wilfrid Laurier.

How unanimously the French-speaking Canadians voted against conscription is shown by the returns from the province of Quebec, which elects 63 members. Of those, 62 returned Liberal members, with big majorities.

Only in three English-speaking ridings of Montreal were Unionist candidates returned for the whole of the province of Quebec. All the cabinet ministers are elected with the exception of two French ministers from Quebec—Albert Sarraute and P. E. Blondin.

## ROMANCE ENDS IN JAIL

Marion, Dec. 18.—A romance beginning in a coffin factory at Cincinnati a year ago between Walter Langenback, aged 25, and Miss May Meyer, aged 18, ended here last night both being locked up in jail. Langenback is held on a white slave charge and the girl as a witness.

The girl is said to have confessed to the authorities that they have lived together as man and wife for several months.

No Lawyer Needed.  
An Atlanta, Ga. tell of a newly qualified judge in one of the towns of the South who was trying one of his first criminal cases. The prisoner was an old negro charged with robbing a hen coop. He had been in court before on a similar charge and was then acquitted.

"Well, Henry," observed the judge, "I see you're in trouble again."

"Yes, Judge," replied the negro. "De last time, Judge, you recollect, you was mad, lawd."

"Where is your lawyer this time?"

"I ain't no lawyer, Judge," said Henry. "Ah's gwine to tell de truth."

## "TANLAC HELPED MOTHER AND ME"

"I feel a lot better," said Carl Otto, telling how Tanlac relieved him. He is employed by the Lancaster Lens company and lives on South Broad street.

"For months I was troubled with poor digestion," he says. "My troubles had been coming on for over two years, and during that time I never felt exactly right."

"One day my father came home with a bottle of Tanlac for my mother. I didn't think much about it at first, but my mother praised it so highly after she had taken it for about a week that I wondered if it would help me. Without saying a word I took a dose or two just to see. It either helped me or I thought it helped me. Anyway it was sufficient to make me go and get a bottle."

"Mother and I have now used three bottles between us, and it has put both of us on our feet. My stomach does not bother me any more, and I'm a hearty eater, too, since taking Tanlac. I can tackle a heavy meal and do justice to it."

Tanlac is a vegetable tonic that has built up thousands of people. If you are all run down and need a tonic get it today. It will do for you what it has done for thousands of others.

Tanlac is being specially introduced at Erman's Arcade drug store and may also be procured at the Evans' pharmacy, Warden hotel building, east side square, Newark, and at the Hebron Drug Store, Hebron.—Advertisement.

## DRINK HOT WATER WITH MEALS TO STOP STOMACH DISORDERS

WHAT PHYSICIANS ADVISE.

Thousands of unfortunate people suffer almost daily from dyspepsia, indigestion, fermentation, sour, acid stomach, flatulence, gases or distress after eating. If they would only form the agreeable habit of slowly drinking with each meal a glassful of hot water containing a teaspoonful or two tablets of Bisurated Magnesia they would soon find their stomachs so strengthened and improved that they could eat the richest and most satisfying meals without the least symptoms of indigestion.

Nearly all so called digestive troubles are caused by an excess of acid and an insufficient blood supply in the stomach, causing the food to ferment and sour before digestion can take place. A glass of hot water will draw the blood to the stomach and the Bisurated Magnesia will neutralize the stomach acids and make the contents bland and sweet. Easy, natural digestion without distress of any kind is the result. Bisurated Magnesia is not a laxative, is harmless, pleasant and easy to take and can be obtained from any reliable local druggist. Do not confuse Bisurated Magnesia with other forms of Magnesia—milk, citrates, etc., but get it in the pure Bisurated form (powder or tablets) especially prepared for this purpose.—Advertisement.
